What is Futsal? It is the fastest growing sport in the world right now and players everywhere are seeing the benefits! Futsal is played on a smaller surface and tight areas. This forces the players to use their skills, creativity, and become more decisive in their decision-making. Futsal also uses a non-bounce ball to keep the game moving fast. Futsal will be another training setting that will specifically give the players the high level they need to grow and test themselves. This is a great game for player development. There are no walls to pick up bad habits of kicking and running.
